DSM-PMW01 PRODUCT SPECIFICATIONS

The Defender Safety **Perfect Mask** is the choice for users looking for comfort with Surgical mask performances. With its medical grade filter, trifold design and incredible fit, it provides the protection you need and the comfort you want. The medical filters meet the ASTM Level 1 performance and provides a 95% Particle Filtration Efficiency and Bacteria Filtration Efficiency. Its unique trifold design provides a sufficient gap between the user's mouth and the mask, reducing the occurrence of having the breathing excretes retouching the users face. Its lightweight yet strong construction allows for more breathability and better heat distribution.

These masks are constructed with Industry standard Polypropylene with Spandex ear loops. They meet the ISO 10993 5,10 requirements and are deemed Non-Irritant, Non-Cytotoxic, and do not cause Irritation. No latex was used while manufacturing these masks.

These masks are manufactured with cGMP compliance.

- Breathable
- Lightweight
- ISO 1099-5,10
- ASTM Level 1 performance
- no latex ear loop or material construction

* available in black
